(The Leading Baptist School in Eastern Kentucky.)

OUR WORK IS ABOVE PAR. It would be expected that after completing our six year course it would take a student two full years to get his degree at a standard college. Some of our graduates have done better than that. Recently one of them completed the B. A. course at Columbia University in one year and a half; and another completed the B. S. course at Chicago University in one year and a quarter.

Just the Thing

For Diarrhoea.

"About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.

Oil Wells and

Tanks on Fire

Mr. William McPherson, who once lived here, but is now a resident of Nebraska, received a letter from his folks at home that the oil tanks at his home town was on fire and that thousands of dollars worth of oil was going up in smoke.

Cure for Cholera Morbus.

"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Cholera and Diarrhoea Remedy," writes Mrs. Sidney Simmons, Fair Haven, N. Y. "Since then other members of my family have used this valuable medicine for colic and bowel trouble with good satisfaction and I gladly endorse it as a remedy of exceptional merit." Obtainable everywhere.

WARNING-DANGER

All persons are hereby warned, that any wire, either telephone or electric light wire, which may become broken, and fall into the streets, walks or anywhere within the city of Barbourville, is dangerous. We caution all persons not to touch or come in contact with any such wires, but if any are found, notify the Barbourville Electric Light Heat & Power Co. at once.—Barbourville

All Worn Out.

Does morning find you with a lame, stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Barbourville people endorse Doan's Kidney Pills. You can rely on their statements. Mrs. J. T. Reddow, N. Main St. Barbourville, says: "I can recommend Doan's Kidney Pills from experience. My kidneys were weak and I suffered from nervous, dizzy headaches. I felt run down and languid and the least work tired me out. The action of my kidneys was irregular, too and I knew that they were at fault. I bought Doan's Kidney Pills from the Costello Drug Co. and used them as directed. They helped me in every way, strengthening my kidneys and relieving the dizzy spells and headaches." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

American Red Cross.

Announcement is made by the American Red Cross that its War Council has appropriated \$100,000 for medical research work in France.

This action follows a report from Major Grayson M. P. Murphy, Red Cross Commissioner to Europe, who cabled the following from Paris to the National Headquarters at Washington:

"An extraordinary opportunity presents itself here for medical research work. We have, serving with various American units, some of the ablest doctors and surgeons in the United States. Many of these men are already conducting courses of investigations which if carried to successful conclusions will result in the discovery of treatments and methods of operation which will be of great use not only in this war but, possible, for years afterward. To carry on their work they need certain special laboratory equipment, suitable buildings, and animals for experimental purposes. At present, equipment and personnel can not be obtained through ordinary government sources without delay, which makes this source of supply quite impracticable."

Enthusiastic cooperation with Major Murphy in his plans for medical research work in France is pledged by Dr. George W. Crile of Cleveland, Ohio, who headed the first Red Cross Unit to reach France; Dr. Lambert, Dr. J. A. Blake; Colonels Ireland and Brady of General Pershing's Staff, and various American experts on the ground.

BARBOURVILLE HIGH SCHOOL

High School Building

The City High School building is being enlarged to exactly twice the size it now is. The Board of Trustees are to be complimented for this splendid improvement and addition to the already beautiful building.

Here in this building you can find the best of teachers with all the modern equipment that will be found at any college, and a place where your boy or girl can get the right kind of an education. They will give you all from the Kindergarten to the High School courses. Let everybody get behind the School Board and help to make this the best school in Kentucky.

Prof. Hugh M. Oldfield

Prof. Hugh M. Oldfield has been engaged as superintendent of the High School for another year, making his fourth year as superintendent. He is one of the best educators to be found in the whole State, and he has proven himself worthy of this title for the manner he has conducted the City School for the past three years. He is well informed, but he does not stop there, he is a man that knows how to organize, and to run a school in the way it should be run.

Mr. Oldfield is, beyond any question of a doubt, the best qualified man for school or college work in the city, and he should be patronized. He will give you that which you cannot get at colleges. He does not use that slow process of doing things. He teaches morality and good citizenship, but does not hold protracted meetings during school hours. They have arranged to take outside students into the High School, and there can be no mistake in sending your boy or girl to this the best of all schools.

Dr. W. Carson Black

Dr. W. C. Black is president within the confines of the city, of the High School Board, and a He works hard at the job, and better one could not be found to say that he is a real hand is

not saying too much. Through his untiring efforts the new school building was erected. He was not satisfied with the building as it was, so it is that the board has voted to enlarge the building, and it is now being made twice its original size, and will take care of twice the number of students. The building will be ready for occupancy, with its 17 rooms, and with a corps of teachers that come recommended as the best the land can afford. There will be fifteen teachers. They come from different parts of the country, and each comes recommended as an artist in the teaching profession. Dr. Black has won for himself a living monument for the time and patience he has so generously given to the people of the city and county, and has given it without the hope of fee or reward.

Barbourville High School Notice.

No child within the school age whose parents or guardian does not live within District No. 1, or otherwise lawfully entitled to attend said school shall be permitted to enroll as a free pupil therein.

High school students not legalized to attend said school can do so by conferring with the Principal, Prof. H. M. Oldfield, as to fee and payment of same in advance.

The Tax Collector will be present on the day of registration to assist faculty in making proper enrollment of students. This is made imperative to the end that each student in the district may have the benefit of best possible instruction.

A truant officer will be employed to notify principal and board of any school children voluntarily absenting themselves from attendance at some school. The law is very rigid for any parent or guardian to permit this practice and THIS BOARD WILL ENFORCE THE LAW TO THE LETTER. Illiteracy among the children will not be tolerated in this community.

School opens its 1917-1918 session September 3rd. By order of the Barbourville School Board, District No. 1.

W. C. Black, Chairman.
W. S. Jarvis, Secy.
